How To: Add Car or Hotel to a Reservation

Users will locate the existing reservation for which they would like to add a car or hotel. This can be found in either Upcoming Trips or Trip Library.

Once viewing the trip, you can opt to add to the reservation in two places:

1. The top right hand corner of the Trip Overview

   ```plaintext
   TRIP OVERVIEW
   Trip Name: Trip from Buffalo to New York
   Start Date: April 18, 2019
   End Date: April 19, 2019
   ```

   Once selected, a pop-up will appear.

2. Underneath the active segments of the trip.

Users should continue through this process until they reach the “Finished” page. An email itinerary will be sent with the updated reservation shortly after.

Users can repeat this exercise to add multiple hotels or cars to a single reservation.

There is no additional fee using this method of adding hotel or car to an existing reservation.
